Zuper + HubSpot: Integrated Sales, Support, and Field Service for a Cohesive Customer Experience

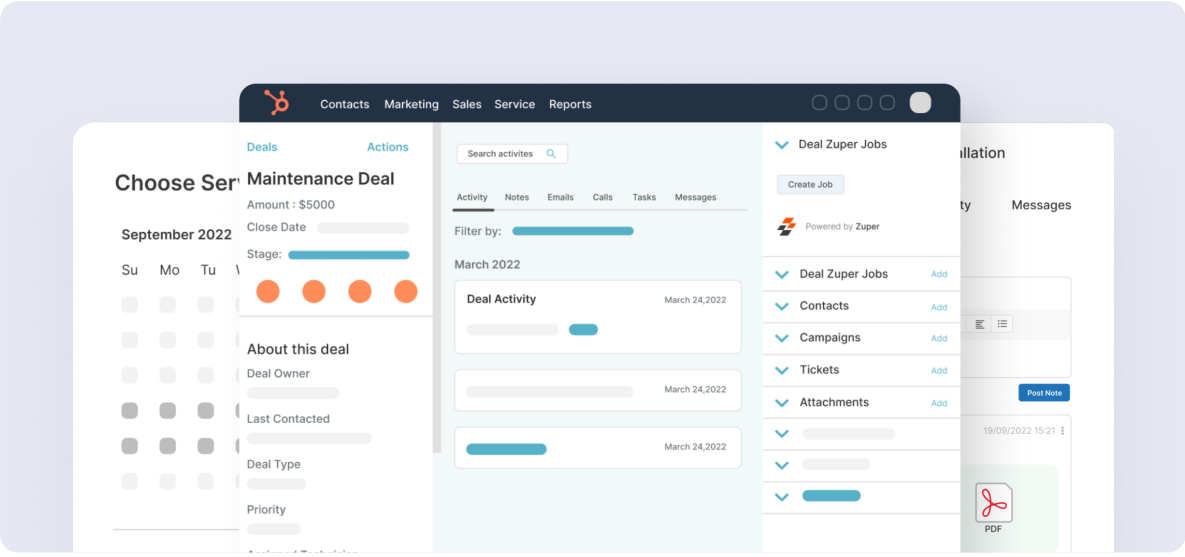
Remove the friction in your field service operations and provide an unparalleled customer experience from start to finish with the Zuper-HubSpot integration. Enable your sales, service, and field teams to collaborate effortlessly across customer touchpoints and improve productivity and efficiency. Tap into the power of this integration to eliminate redundancy, enjoy two-way data sync, and increase customer satisfaction.

The All-in-One Sales, Support, and Field Service Integration

- Design a unified customer experience
- Optimize end-to-end workflow visibility
- Automate workforce collaboration
- Improve customer response time
- Sync data between platforms in real-time

> *"The capabilities from Zuper and HubSpot has enabled us to recruit more landscapers and deliver better overall service to our customers."*

Jacob Krum,
Co-Founder, TRIM Landscaping



Why Choose Zuper and HubSpot?

Integrating Zuper's FSM platform with HubSpot's sales and service hub connects your entire workforce so that they deliver a cohesive customer experience. Whether it is a new customer requesting an installation or a return customer that needs a service appointment, your sales and support teams can connect them to the right technician for the job – creating more satisfied customers for your service business.

Schedule and Dispatch Technicians From HubSpot

Initiate jobs from your HubSpot CRM or help desk ticket and instantly schedule the best field service technician based on location, availability, or skill set.

Improve Work Order Management

Monitor work order progression through job notes, photos, and videos to ensure that sales, support, and field service teams stay informed every step of the way.

Create and Send Estimates, Contracts, and Invoices

Generate digital estimates, contracts, and invoices and share them with customers for approval via text or email.

Automate Customer Communication

Improve your customer experience through automated routine communication, including job update notifications and arrival time alerts.

ZUPER™
